VACANT LAND FOR SALE IN ROBBERG RIDGE ESTATE

This premium stand is located on the front row in the Robberg Ridge Private Estate. The property is sea facing with panoramic views of the Robberg Point Nature Reserve, the Seaside Longships Valley, the Bay itself as well as scenic view of the Outeniqua Mountain range across the bay. This semi sloped flat stand has split level building rights. Currently, building time limits are not implemented in this estate as yet. This naturally makes it perfect for potential buyers who require more time with their planning.

This estate is about to take off in more ways than one with arguably some of the best sea views in Plettenberg Bay Construction with the second house is 3/4 completed and construction with third house also on the front has just commenced. At this unheard of price for a front row stand, this is without a doubt the gem of the year.
